## The Christie Plan

The **Christie** is a beautifully designed ranch-style home that blends open-concept living with thoughtful functionality, offering everything you need on one convenient level—plus the option of a finished basement for even more space.

Step through the welcoming **foyer** into a bright and spacious layout. The heart of the home features an open **kitchen, dining, and living area**, perfect for entertaining or cozy nights in. A **sliding door** opens to a **patio** with an optional extended or covered layout for year-round outdoor living.

The **primary suite** is tucked at the rear of the home for privacy, complete with a large **walk-in closet** and a spa-inspired **bathroom** featuring dual sinks and a walk-in shower. A **secondary bedroom** with adjacent full bath at the front of the home provides comfort for guests or family. Everyday convenience is built in with a **laundry room** just off the **2-car garage**, plus extra pantry and storage space.

### Optional Finished Basement

Choose to expand with a finished basement, which adds two additional bedrooms with closets, a full bath, and a generous **recreation room**—ideal for a home theater, gym, or game space.
